Designed for mobile-first customers and practical business use.

Student-friendly

Entry options for students and professional business solutions.

Security-conscious

Specific security / compliance requirements are scoped separately.

06

Important Terms

Please read before confirming your project.

- 01 Prices are in INR and are exclusive of applicable taxes unless stated otherwise.
- 02 Domain registration/renewal, premium third-party software, paid APIs, payment-provider fees, SMS/WhatsApp provider charges and other external charges are billed separately where applicable.
- 03 Hosting, storage, bandwidth and support limits depend on the selected plan and project scope.
- 04 Custom projects are quoted after requirements are reviewed.
- 05 Delivery time depends on scope, content availability, approvals and third-party integrations.
- 06 Free student deployment is intended for legitimate academic/project use and remains subject to reasonable usage limits.
- 07 Refunds, cancellations, renewals and ownership/hand-over terms should be agreed in the project quotation or invoice.
- 08 Struck-through amounts show the regular price; the highlighted price is the current offer price and may change without notice.

START FREE

FREE CHECK → DISCOVER YOUR SECURITY SCORE. ₹0. No payment. No commitment.

Packages for mobile apps, APIs, cloud, attack-surface assessments, complete business VAPT and monthly security care follow on the next pages.

02

Core Security Packages

Start with a free check, then choose the depth that fits your business.

01 — FREE SECURITY CHECK

Free Security Check

₹0

Find out what attackers can see — before they find something worse. A quick external security check of your public-facing website.

- ✓ SSL/TLS check
- ✓ Security-header check
- ✓ Domain & DNS review
- ✓ Public exposure check
- ✓ Basic technology exposure
- ✓ Common security misconfiguration checks
- ✓ Security score
- ✓ Short security summary

BEST FOR Anyone who owns a website. No payment. No commitment.

02 — SECURITY HEALTH CHECK

Security Health Check

₹1,499

For people who want more than the free check. A practical security review for small websites and online businesses.

- ✓ Everything in Free Check
- ✓ Expanded vulnerability assessment
- ✓ Website configuration review
- ✓ Authentication/login review
- ✓ Basic access-control review
- ✓ Common OWASP checks
- ✓ Sensitive-information exposure review
- ✓ Security recommendations
- ✓ Professional security report

BEST FOR Small websites • Freelancers • Personal businesses
• New websites

03 — STARTUP SECURITY AUDIT

Startup Security Audit

₹4,999 ~~₹7,999~~

LAUNCH OFFER • ₹4,999 INSTEAD OF ₹7,999

Before your website or product starts handling real customers.

- ✓ Website security assessment
- ✓ API security checks
- ✓ Authentication & authorization review
- ✓ Session-security review
- ✓ Common OWASP vulnerabilities
- ✓ File-upload checks
- ✓ Input-validation checks
- ✓ Security configuration
- ✓ Information-disclosure checks
- ✓ Risk classification
- ✓ Detailed report
- ✓ Remediation roadmap

BEST FOR Startups • SaaS • Agencies • Online businesses

04 — BUSINESS SECURITY AUDIT

Business Security Audit

₹9,999

★ **MOST POPULAR**

The most practical package for established businesses.

- ✓ Website security assessment
- ✓ API assessment
- ✓ Domain & DNS security
- ✓ SSL/TLS
- ✓ Security headers
- ✓ Authentication
- ✓ Authorization
- ✓ Session security
- ✓ Common OWASP risks
- ✓ Basic business-logic checks
- ✓ External attack-surface review
- ✓ Vulnerability validation
- ✓ Detailed technical report
- ✓ Executive summary
- ✓ Remediation recommendations
- ✓ 1 follow-up verification

BEST FOR Established businesses

03

Testing, Cloud & Attack Surface

Real manual testing and attacker's-eye assessments for businesses that need more than automated scanning.

05 — WEB / API VAPT

Web / API VAPT

From ₹24,999

For businesses that need actual penetration testing. Not just automated scanning.

- ✓ Reconnaissance
- ✓ Automated vulnerability assessment
- ✓ Manual security testing
- ✓ Web application testing
- ✓ API testing
- ✓ Authentication testing
- ✓ Authorization testing
- ✓ Session testing
- ✓ Input validation
- ✓ Business-logic testing
- ✓ Access-control testing
- ✓ Vulnerability validation
- ✓ Evidence collection
- ✓ Severity classification
- ✓ Technical report
- ✓ Executive report
- ✓ Remediation guidance
- ✓ Retest

Final price depends on application size, number of endpoints, user roles and testing scope.

10 — COMPLETE BUSINESS VAPT

Complete Business VAPT

From ₹49,999

For companies with multiple systems.

POSSIBLE SCOPE

WEB	Website • Web applications
API	REST / GraphQL APIs
INFRASTRUCTURE	External infrastructure • Network services

CLOUD	AWS / Azure / GCP

DELIVERABLES

- ✓ Executive report
- ✓ Technical report
- ✓ Risk register
- ✓ Evidence
- ✓ Vulnerability severity
- ✓ Remediation roadmap
- ✓ Management briefing
- ✓ Retesting

08 — CLOUD SECURITY

Cloud Security Assessment

From ₹19,999

For AWS, Azure and similar environments. Potential scope:

- ✓ Identity & access configuration
- ✓ Public exposure
- ✓ Storage permissions
- ✓ Security configuration
- ✓ Network exposure
- ✓ Secrets/configuration review
- ✓ Logging/security controls
- ✓ Common cloud misconfigurations
- ✓ Risk report
- ✓ Remediation roadmap

09 — EXTERNAL ATTACK-SURFACE ASSESSMENT

External Attack-Surface Assessment

₹9,999

See your organization from an attacker's perspective. "We check what your organization exposes to the internet."

- ✓ Domains
- ✓ Subdomains
- ✓ Public services
- ✓ Exposed technologies
- ✓ Publicly accessible assets
- ✓ Configuration issues
- ✓ Information exposure
- ✓ External vulnerabilities
- ✓ Risk prioritization
- ✓ Security report

04

Mobile & API Security

Dedicated assessments for the apps and APIs your business depends on.
